

BOWIE, MD – Today, Congressman Steny H. Hoyer (MD-5) visited Samuel Ogle Middle School. He attended a school assembly where he delivered remarks and answered questions from students.

“I’m pleased I could visit Samuel Ogle Middle School today and answer questions from the bright students who attend school here,” **stated Congressman Hoyer**. “Maryland boasts the number one public school system for five years in a row, and it’s because of the hard work of students, teachers, and administrators at Samuel Ogle and other schools around our state. I enjoyed sharing my experiences in Congress with these wonderful students and answering their thoughtful questions.”

Congressman Hoyer answered questions from students about how Congress works and his experience as a Congressman. He also discussed the importance of civic engagement. To view photos of the visit, click [here](#) .
